EXPERIENCE

A PLUS Academy – Amman, Jordan | 1/10/2023 – (Present) Full Stack Web Developer

I joined the training of the BEST JO company at the A PLUS Academy for a period of 8 months, and it included application and project creation. One of the projects I undertook was a database project on sqlserver, and after that we dealt with asp.net core7, and I created a project after completing the level, and after that, frontend topics and patterns. Designing and uploading the project to a server was enough to get me started in this field.

- **API Project Entity Frame Work ,Code First (Cosmetics Online Store):** When I finished my training period at the API Entity Frame Work level, I created a project (Cosmetics Online Store) on onion architecture.
- **Resturant Management API Project (ADO .NET):** After finishing with one of the ORM members, which is ADO .NET, which is concerned with DATABASE FIRST, I created the Restaurant Management project
- **Fitness Class Booking System (DataBase Project):** when I finished level 3, which was specialized in databases, I created a final project for the level, which was about (Fitness Class Booking System
- **portfolio website:** I created a personal page, such as a CV, that included my personal information, and it was using HTML&CSS

The Hope International – Amman, Jordan | 13/6/2023 – 5/10/2023 Business Analysis

- I trained for 4 months at Raja International Company in the business analysis department, which specialized in waterfall and agile methodologies.

- **In my training at the company**, I practiced in the business analysis department, and among the tasks we performed was dividing tasks into steps in a way that I could control, collecting data, analyzing it, and identifying opportunities to improve the process.

International group for exchange shehadeh Bro.s – Amman, Jordan | Feb 2023– Aug 2023

During my training period from the university, I was training in a bank in the remittance department.

- **Converting internal and external currencies**
- **Dealing with the organization's system for receiving and transferring currencies**
- **I gained good experience in the field of financial and banking services**

EDUCATION
